

Protect your property and your investments with our helpful *Fall Property Checklist*

Lawn Care | Tree Service | Pest Control | Landscaping | Holiday Lighting

- Cover or store patio furniture and grills to protect them from the elements.
- Cut down perennials – this is also a good time to divide and plant elsewhere.
- Make sure storm drains point away from the house to prevent ice build up.
- Clay and fragile planters should be moved indoors to prevent cracking.
- Drain garden hoses and store them inside to prevent damage.
- Turn outdoor faucets off inside your home – leave the outside open to drain excess water.
- Inspect outdoor lighting for dead bulbs and dirty lenses. A well-lit property prevents slips and falls on icy surfaces.
